Lesson Plan: Chuseok Games Arcade Day

Grade 3, Unit 2 "Thank You" · a 35-minute speaking lesson that checks the home project

Teacher	_____
Classes / date	Grade 3 (3A and 3B) Date: _____
Pupils	Ages 8 to 9, level A1 (CEFR). First language Turkish. Mixed ability. About 19 pupils per class.
Unit link	Global Readings 2, Unit 2 "Thank You", Reading 1 "Chuseok: Korea's Harvest Festival" (festival traditions and games). Home project: "Chuseok Game Master" workbook.
The home project	Each pupil made one traditional Korean folk game from recycled materials (Ddakji, Paengi, Gonggi, Jegichagi or Yut Nori), wrote a two-line rulebook and a host script, and prepared cheering phrases. Today pupils host three classmates and collect signatures in a visitor log.
Length	35 minutes (one lesson)
Resources	The pupils' home-made games, rulebooks, host scripts and visitor logs; five printed station signs and HOST / VISITOR badges; one interactive smartboard (self-made offline lesson program with a rotation timer, role guide and scoreboard). No pupil devices are needed.

Why this lesson is designed this way

- **Real purpose and audience.** Pupils are the experts: they teach classmates a game they made. Speaking has a real reason, and the audience is real peers, not the teacher.
- **Everyone speaks at once.** Half the class hosts while the other half visits, so every pupil speaks for most of the lesson. In a class of 19, about ten stations run at the same time.
- **Structured rotation.** Visitor groups of about three move to the next station every two and a half minutes, so each host welcomes several groups and each visitor plays at least three games in each round.
- **Language is scaffolded.** Hosts use their own scripts and the frames on the board ("Hello! Welcome to my game. The rules are ... Let us play!"). Visitors use "Can I play?", "Thank you!" and cheering phrases.
- **Assessment without a test.** The teacher listens, notes and checks the visitor logs. The home project and the speaking are assessed in the same lesson.
- **Culture and values.** Pupils learn about traditional Korean games and practise sportsmanship: cheering for others, taking turns, thanking the host.
- **Safe and private.** The program works offline and stores nothing; only team points are shown.

Learning aims and success criteria

Lesson aims	By the end of the lesson pupils will be able to: 1. Host classmates and explain the rules of their game in English (at least two sentences). 2. Ask politely to play ("Can I play?") and thank the host. 3. Cheer for others with English phrases (Great job! Try again! You can do it!). 4. Say which game they liked best, and why.
Success criteria ("I can...")	I can welcome my visitors and say the rules of my game. I can ask "Can I play?" and say "Thank you!". I can cheer for my friends in English. I can say "My favourite game was ... because ...".
Target language	Vocabulary: host, visitor, game, rules, win, cheer, Ddakji, Paengi, Gonggi, Jegichagi, Yut Nori. Structures: Hello! Welcome to my game. / The rules are ... / Let us play! / Can I play? / Great job! / Try again! / Thank you for playing! / My favourite game was ... because it is fun.
Skills	Speaking and listening (main focus)

Procedure (35 minutes)

Time	Stage and activity	What the teacher does	What the pupils do	Interaction and resources
4 min	1. The Arcade Opens Mode: think	Shows the arcade sign and the five games on the board. Enters the number of pupils present: the board shows how many hosts and visitor groups there are. Practises the cheering phrases twice with the class. Explains the rules: hosts stay, visitors move at the bell, everybody signs the log.	Put their game and rulebook on the desk. Hosts read their host script quietly. Repeat the cheering phrases. Co-host with a friend if a game was forgotten.	Whole class. Smartboard. Home-made games, printed signs and badges.
8 min	2. Round 1: Hosts and Visitors Mode: talk	Starts the 2½-minute timer. At the bell, visitor groups move clockwise to the next station and the teacher starts the next 2½ minutes (three station times). Walks around and listens; notes good hosting and cheering. Gives team points.	Hosts: welcome the visitors, say the rules, let them play, cheer, ask them to sign the log. Visitors: "Can I play?", play, cheer, "Thank you!", sign the log.	Half the class hosts at stations (about 10), half visit in groups of about 3. Visitor logs.
8 min	3. Round 2: Swap roles Mode: talk	Calls "Swap!" and starts the timer again for three station times. Checks that games move to new tables. Gives points to teams where everyone is speaking English.	Hosts become visitors and visitors become hosts. Repeat the same routine with new hosts and new visitors.	Same as Round 1 with roles swapped.

Time	Stage and activity	What the teacher does	What the pupils do	Interaction and resources
7 min	4. Round 3: Open arcade Mode: move	Opens the arcade: pupils choose a station they have not visited. Checks the logs: every host should have three signatures. Helps quiet pupils to join a station. Gives points.	Choose a new station, play, cheer and thank the host. Hosts still host. Sign the visitor logs. Aim for three games visited.	Free movement, pairs and small groups. Visitor logs.
5 min	5. My Favourite Game Mode: talk	Asks pupils to say "My favourite game was ... because ..." and taps the game on the board each time so the class sees a live vote. Asks three pupils for a reason with "because". Leads the applause.	Say the sentence aloud. Listen to friends. Clap for every game.	Whole class, back at seats. Smartboard vote chart.
3 min	6. Arcade Champions Mode: reflect	Shows the team scores and cheers for every team. Stands at the door and listens to each pupil say one rule of their game in English.	Say one rule of their game to leave the classroom.	Whole class. Each pupil to teacher. Smartboard podium.

Differentiation

Support	Pupils may read their host script word for word. Pairs of pupils can co-host. Frames stay on the board. A pupil who is not ready can start as a visitor and host in Round 2. Pupils can show the game first and say the rule second.
Core	Pupils say the two lines of their rulebook, welcome the visitors and cheer without reading.
Stretch	Pupils add a tip ("Do not touch the stones"), ask visitors questions ("Do you like it?"), or explain how they made the game ("I made it from paper").

Assessment

- **During the lesson (formative):** the teacher listens at each round and uses the checklist below. The visitor logs show how many classmates each host welcomed.
- **Home project:** the game, the rulebook and the host script are checked as the pupils host (does the game work, are the rules clear?).
- **At the end:** the door pass: every pupil says one rule of their game in English.

Observation checklist (teacher copy)

Pupil (first name)	Says rules in English	Uses cheering phrases	Visitor log signed (3)	Notes

Anticipated difficulties and solutions

Possible difficulty	What the teacher does
A pupil forgot the game or it broke.	Pair the pupil with a co-host, or lend a spare game from the teacher's box. The pupil can host with a friend's game.
Pupils speak Turkish with each other.	Praise English use with team points. Keep the frames and cheering phrases on the board. Visit stations where English is quiet and model the first sentence.
Too much noise with 10 games at once.	Use a clear start and stop signal (the bell on the board). Use a "quiet voices" reminder. Give points for good listening.
Unequal numbers of hosts and visitors (an odd number of pupils).	Enter the real number of pupils on the board. One station can have a double host. Round 3 balances everybody.
Pupils do not know the rules of other games.	Hosts explain the rules; visitors may ask "Can you say it again?". The board shows an example rule for every game.
Technology fails.	The program works offline. If the board fails the teacher uses a phone timer and the printed signs.

Links, follow-up and reflection

- **Links:** culture (traditional Korean games), arts and crafts (the home-made games), values (sportsmanship, kindness).
- **Follow-up (optional):** a short class book: "Our Arcade", with one rule and one picture from each pupil.
- **Teacher reflection after the lesson:** Which pupils spoke the most English? Who needs a confidence boost as host? Which games were popular and why?

Prepared for the headteacher by the class teacher. Materials: pupils' home-made games, self-made interactive lesson program (works offline), printed signs and badges.
