Are you ready?

How to play Senet

1. Two players. Each player has 5 pieces. Put them on the first squares, one colour after the other.
2. Throw the 4 sticks. Count the painted sides: that is how many squares you move (4 white sides = move 5).
3. Move along the board like a snake: row 1 left to right, row 2 right to left, row 3 left to right.
4. You cannot land on your own piece. If you land on the other player's piece, you change places.
5. The first player with all 5 pieces off the board wins!

Game English

1. It's my turn. / It's your turn.

2. Throw the sticks! One, two, three.

3. I move three squares.

4. Change places!

5. I win! · Good game! Thank you.

Our class rules for Senet: easier than the real game (nobody knows all the old rules today).
