Grade 3 · Unit 3 · How Much Is It? · Lesson 1: How Much Is It?

35 minutes · classes 3A and 3B · A1 · one smartboard + mini whiteboards · Open: unit3-g3-lessons/index.html?lesson=1

Lesson goal. Pupils ask and answer prices ("How much is it? It's … dollars."), say what we can buy and where we can go, and explain why people need money.
Book link. Book pp. 40-41 (unit opener: money jars; Think, Pair, Share; the two farmers).
Words. money, dollar, buy, price, expensive, jar, label, goat, grain, farmer
Language. How much is it? · It's … dollars. · That's expensive! · You can buy … / You can go … · Do you want a label for …? · Of course I do! · We both want …
Prepare. Print the Cards page: BUY / GO signs and the price cards (2 sets). Mini whiteboards and markers for each team. One smartboard (the game is played by teams in turns).

#	Step	Time	Mode	Pupils do	Teacher tips
1	**Two Money Jars**	3 min	🤔 Think	• 👀 Look at the jars • 🤔 Whisper to your partner: why are there jars? **Say:** I can see … · There is money in the jar.	Book link: Unit 3 opener, p.40-41 (the jars: "Donating: Save the Animals" and "Saving: Gift for Mom"). Press the button for each question. Accept one-word answers and sentences; praise "I can see …". Do not teach "saving" or "donating" yet. Pupils will meet the words in the jar labels later. Show the five missions at the end.
2	**Where Do We Use Money?**	4 min	🚶 Move	• 👀 Read the card • 🚶 Walk to BUY or GO • 🗣️ Say the sentence to a friend **Say:** You can buy … · You can go …	Book link: p.41 D "Where do people use money?" and p.55 frames "You can buy … / You can go …". Print the two corner signs from the Cards page (BUY and GO). Pupils walk, then say the sentence. Reveal the answer, then press Read card. Extra: ask "Where do YOU use money?" and let pupils add their own places (shop, cafe, bus, cinema).
3	**The Farmers' Problem**	6 min	🎭 Act it out	• 🧍 Stand up and do the action • 🗣️ Repeat after the teacher (echo) • 🤔 At the 🤔 part: talk with your partner **Say:** One farmer needs a goat. · The other farmer needs some grain.	Book link: p.41 E (picture of two farmers: "One farmer needs a goat. The other farmer needs some grain.", "What's wrong? How can they fix it?"). Pupils do each action first, then you press the next part. At the 🤔 part the screen waits: pupils guess the problem (answer: they cannot agree how much grain is one goat). The book's question is "What's wrong? How can they fix it?" Pupils may say money, shells or a price. Accept all good ideas: this leads to Lesson 2.

4	**The Class Shop: How Much Is It?**	7 min	🗣️ Talk	• 🙋 Customer: ask How much is it? • 🏪 Shopkeeper: answer It's … dollars. • 🔁 Swap roles. Say That's expensive! when it costs too much **Say:** How much is it? · It's … dollars. · That's expensive!	Book link: unit title "How Much Is It?"; the book story uses "That's expensive" (p.52). Model once with a pupil (press Model it). Tap an item: the board says the price. Change the 👛 money to show when "That's expensive!" appears. Pairs practise with the item cards on the board. Start the timer. Walk around and listen. Support: point and say only the number. Stretch: add "I'll take it".
5	**Jar Labels**	4 min	🎨 Create	• 🗣️ Ask: Do you want a label for …? • ✅ Answer: Of course I do! • 📢 Tell the class: We both want … **Say:** Do you want a label for …? · Of course I do! · We both want …	Book link: p.41 A-C (think about jar labels, discuss with a partner, share with the class). Model the dialogue (Model it). Pairs choose a label idea. Each pair tells the class "We both want …", and you tap the label to add a jar to the shelf. Pupils may also write their own label on a mini whiteboard. Good ideas are real: video games, college, animals, a gift for Mom.
6	**GAME: Super Shopper**	9 min	🎮 Game	• 🛒 Tap an item for your basket • 🗣️ Everybody asks: How much is it? • 👛 Stop before your money is gone. Spend EXACTLY your money for +3! **Say:** How much is it? · It's … dollars. · That's expensive!	Book link: unit title "How Much Is It?" and p.52 "That's expensive". This is the practice game for prices. Each team gets a budget ($6, $8 or $10) and six items. The team talks, then one pupil taps. Every pupil shouts "How much is it?" before the answer. Points: 1 for each item, +3 if the team spends EXACTLY its money. Press Pay and finish, then Next team. Four teams play, then the winner is shown. Support: a weaker team may take the cheap items. Stretch: ask "How much is it altogether?"
7	**Thank You, Shoppers!**	2 min	🤔 Think	• 🏆 Cheer for every team • 🚪 Door pass: ask the teacher: How much is it? **Say:** How much is it?	Show the scores and cheer for everyone. At the door each pupil asks "How much is it?" about something in the room and you answer with a price. It is a quick check for you.

Support. Point and say only the number or the item; use the picture cards; partner repeats after the shopkeeper.
Stretch. Add "I'll take it" and "How much is it altogether?"; give reasons with because.

Check learning. Door pass: each pupil asks "How much is it?" about something in the room and the teacher answers with a price. Give a team point for every correct team, not only the fastest.

Grade 3 · Unit 3 · How Much Is It? · Lesson 2: Before Money Was Money

35 minutes · classes 3A and 3B · A1 · one smartboard + mini whiteboards · Open: unit3-g3-lessons/index.html?lesson=2

Lesson goal. Pupils say how people paid long ago (barter, cowrie shells, metal knives and spades, first coins), put four kinds of money in order, use five new words and tell a problem from a solution.
Book link. Book pp. 42-43 (Reading 1: The History of Money, first part; Words in Context).
Words. bartered, metal, valuable, credit card, plastic · cowrie shells, coin, carry, worth
Language. People bartered. · … is easier to carry than … · The first coins came from Lydia. · It is a problem / solution because …
Prepare. Print the Cards page: PROBLEM / SOLUTION signs. Mini whiteboards and markers for each team. One smartboard (the game is played by teams in turns).

#	Step	Time	Mode	Pupils do	Teacher tips
1	**Mystery Money**	3 min	🤔 Think	• 👀 Look at the boxes • 🤔 Guess with your partner: Is it money? • ✋ Raise your hand to open a box **Say:** I think it is … · Is it money?	Book link: p.46 A (Which of these is or was money?). All five things were money at some time in history. Pupils guess before you open each box. Accept all guesses. When all five are open, show the four missions. Do not say the dates yet. They come in the next step.
2	**Travel Back in Time**	7 min	🎭 Act it out	• 🧍 Stand up and do the action • 🗣️ Repeat after the teacher (echo) • 🤝 At the end, retell it to a partner **Say:** People bartered. · Shells are easier to carry than goats.	Book link: pp.42-43, Reading 1 "The History of Money" (barter around 6000 BCE, cowrie shells in 1200 BCE, metal knives and spades around 1000 BCE, round metal money with holes, first true coins around 600 BCE in Lydia). The timeline fills as the story goes. At the 🤔 part pupils guess what people can use before you reveal the shells. BCE means "Before Common Era": the dates count backwards (6000 BCE is older than 1200 BCE). The book asks: "Can you guess what CE stands for?" Lydia is part of modern-day Turkey (book p.43). Pupils usually love this.
3	**Word Detectives**	6 min	🔍 Detective	• 👀 Look at the word card • 🤔 Guess the meaning with your partner • 🗣️ Say the word and the sentence	Book link: p.43 "Words in Context": bartered, metal, valuable, credit card, plastic ("Find these words in the reading. What do you think they mean?"). Tap a card: the board says the word, the meaning and an example sentence. Pupils guess first, then you tap.

				Say: bartered · valuable · credit card	Then press Clue game: pupils say the missing word. The word cards are the sentence frames for the next steps.
4	**Put the Money in Order**	5 min	🤔 Think	• 🤝 Talk with your team • ✍️ Write 1-2-3-4 on the mini whiteboard • ⬆️ Hold it up at 0 **Say:** First … · Shells are easier to carry than goats.	Book link: pp.44-45 timeline (1200 BCE cowrie shells, 1000 BCE knives and spades, 600 BCE first coins) and p.43 "Why do you think they put holes in the coins?". Teams order the four cards on their whiteboards. Show the order, then practise "easier to carry than". Holes: discuss "I think … because …". A likely answer is that holes let people carry coins on a string (teacher fact: not printed in the book).
5	**Problem or Solution?**	4 min	🚶 Move	• 👀 Read the card • 🚶 Walk to PROBLEM or SOLUTION • 🗣️ Say why **Say:** It is a problem because … · It is a solution because …	Book link: p.47 "A problem is something difficult … A solution is a way to fix the problem." The skill is practised again later in the unit. Print the two corner signs from the Cards page. Pupils walk, then give a reason with "because". Reward the reason, not only the correct corner.
6	**GAME: Money Catcher**	8 min	🎮 Game	• 👀 Look at the falling things • 👆 Tap money: shell, coin, note, card, knife money • 🗣️ Everybody shouts the word **Say:** This is money. · This is not money.	Book link: p.46 A "Which of these is or was money?" (cowrie shells, ancient Chinese knife, paper money, credit card are money; a fork and knife and a wallet are not). Each team has 25 seconds and one pupil taps at a time (change the pupil every few seconds). The rest of the team shouts what they see. Not-money items only wobble: nobody loses points. Points go to the scoreboard automatically. After four teams the winner is shown. Press Play again for a second round. Ask afterwards: Which was the first money? Which was the last? (checks the timeline).
7	**Time Travellers' Ceremony**	3 min	🤔 Think	• 🏆 Cheer for every team • 🚪 Door pass: one thing people used as money **Say:** People used … as money.	At the door each pupil says one sentence: "People used shells / coins / … as money." It checks the new vocabulary.

Support. Use the picture and one word ("shell", "coin"); point to the timeline; sentence frame "People used … as money."
Stretch. Explain why the money changed ("because it is easier to carry"); say what money might come next.
Check learning. Door pass: "People used … as money." (shells / coins / goats …). Give a team point for every correct team, not only the fastest.

Grade 3 · Unit 3 · How Much Is It? · Lesson 3: Money Changes

35 minutes · classes 3A and 3B · A1 · one smartboard + mini whiteboards · Open: unit3-g3-lessons/index.html?lesson=3

Lesson goal. Pupils say how money changed (coins, paper money, credit cards, electronic money), use "easier to carry than", learn six money words and say what they think the next money will be.
Book link. Book pp. 44-45 (Reading 1 continued: coins, paper money, credit card, electronic money; the timeline).
Words. coin, paper money, credit card, electronic money, internet, century
Language. Paper money is easier to carry than metal coins. · The first credit card was in 1958. · I think the next money will be … · I wish we used … because …
Prepare. Mini whiteboards not needed. One smartboard (the game Time Train is played by teams in turns).

#	Step	Time	Mode	Pupils do	Teacher tips
1	**Remember the Money Story**	3 min	🤔 Think	• 👀 Look at the pictures • 🤔 Whisper to your partner: what do you remember? • ✋ Tell the class **Say:** People bartered. · Shells are easier to carry than goats.	Book link: recap of pp.42-43 (barter, cowrie shells, knives and spades, the first coins) before pp.44-45. Press the button for each question. Accept one-word answers and sentences. Show the six missions at the end.
2	**From Coins to Cards**	7 min	🎭 Act it out	• 🧍 Stand up and do the action • 🗣️ Repeat after the teacher (echo) • 🤝 At the end, retell it to a partner **Say:** Paper money is easier to carry. · The first credit card was in 1958.	Book link: pp.44-45, Reading 1 "The History of Money" (coins from silver and gold, the first paper money from China between 800 and 900 CE, Europe around 1600 CE, the first credit card in 1958, electronic money in the 21st century) and the timeline strip on pp.44-45. The timeline fills as the story goes. At the 🤔 part pupils guess what is easier to carry than coins. Press Reveal. CE means "Common Era" (the book asked "Can you guess what CE stands for?" on p.42). Today a pupil may be able to say it.
3	**Six Money Words**	5 min	🔍 Detective	• 👀 Look at the word card • 🤔 Guess the meaning with your partner • 🗣️ Say the word and the sentence **Say:** coin · credit card · electronic money	Book link: pp.44-45 (coin, paper money, credit card, electronic money, internet, centuries). "Credit card" was a Words in Context word on p.43. Tap a card: the board says the word, the meaning and an example sentence. Then press Clue game: pupils say the missing word.
4	**Easier to Carry**	4 min	🗣️ Talk	• 🤝 Tap a pair with your partner	Book link: pp.42-44 (shells easier to carry than goats or bags of grain; paper money easier to carry than

				• 🗣️ Say: … is easier to carry than … • 💬 Which do you like? Why? **Say:** … is easier to carry than … · I like … because …	metal coins). Model one sentence, then pupils say the rest. Support: say only the two words. Stretch: add "because".
5	**GAME: Time Train**	9 min	🎮 Game	• 👂 Listen to the question • 🗣️ Talk with your team, then answer • 🚂 A right answer moves the train **Say:** I think it is … · The answer is …	Book link: the timeline on pp.44-45 (barter, cowrie shells, knives and spades, first coins, paper money, credit card, electronic money). Teams take turns. The team talks for 10 seconds, then one pupil taps the answer. Right = 2 points and the train moves. Wrong = the next team can steal the question for 1 point. If nobody gets it, the answer is shown and the train moves. Press Next stop after each question. After the last station the winner is shown.
6	**What Is Next? Vote!**	4 min	🗣️ Talk	• 🤔 Think: what comes next? • ☑️ Tell the teacher your vote • 🗣️ Say: I think the next money will be … **Say:** I think the next money will be … · I wish we used … because …	Book link: p.45 "What type of money do you think is going to be next?" and "Do you wish we used different money today?" Tap the picture once for each pupil's vote. Ask two or three pupils to say why with "because". There is no wrong answer.
7	**Time Travellers' Ceremony**	3 min	🤔 Think	• 🏆 Cheer for every team • 🚪 Door pass: the next type of money **Say:** I think the next money will be …	At the door each pupil says one sentence: "I think the next money will be …". It checks the new language and gives you ideas for Lesson 4 (design the next money).

Support. Use the picture and one word; the timeline strip helps; steal-the-question lets teams help each other.
Stretch. Add "because"; compare three kinds of money; say why people wanted something new.
Check learning. Door pass: "I think the next money will be …". Give a team point for every correct team, not only the fastest.

Grade 3 · Unit 3 · How Much Is It? · Lesson 4: Design the Next Money

35 minutes · classes 3A and 3B · A1 · one smartboard + mini whiteboards · Open: unit3-g3-lessons/index.html?lesson=4

Lesson goal. Pupils say which things are or were money, complete the money chart, find a problem and its solution, and design the next type of money.
Book link. Book pp. 46-47 (Explore the Reading: Which of these is or was money? Compare and contrast the types of money. Design the next money; Identifying Problems and Solutions).
Words. problem, solution, metal, paper, plastic, shells, design
Language. Cowrie shells were used in 1200 BCE. · Credit cards are made from plastic. · The problem is … The solution is … · I think the next type of money will be a … You can … it.
Prepare. Print the Cards page: MONEY / NOT MONEY signs. Mini whiteboards and markers for each team (chart and design). One smartboard.

#	Step	Time	Mode	Pupils do	Teacher tips
1	**Is It or Was It Money?**	4 min	🚶 Move	• 👀 Read the card • 🚶 Walk to MONEY or NOT MONEY • 🗣️ Say the sentence **Say:** … was money. · … is not money.	Book link: p.46 A "Think and check. Which of these is or was money?" (cowrie shells, a fork and knife, an ancient Chinese knife, a wallet, paper money, a credit card). Answers: the shells, the Chinese knife, paper money and the credit card are or were money. Print the two corner signs from the Cards page. Pupils walk, then say the sentence. A wallet holds money but is not money.
2	**The Money Chart**	5 min	🤔 Think	• 🤝 Talk with your team • ✍️ Fill the chart on the mini whiteboard • 👆 Check: the teacher taps a cell **Say:** … was used in … · … was made from …	Book link: p.46 B "Compare and contrast the types of money. Complete the chart." (Type of Money / When It Was Used / What It Was Made From). Teams draw the chart on mini whiteboards and fill it in from what they know. Tap each cell to check (or Show all answers). Answers: cowrie shells 1200 BCE shells; knives and spades 1000 BCE metal; paper money 800-900 CE paper; credit card 1958 plastic.

3	**A Problem and a Solution**	6 min	🎭 Act it out	• 🧍 Stand up and do the action • 🤔 At the 🤔 part: find the problem • 🗣️ Say: The problem is … The solution is … **Say:** The problem is … · The solution is …	Book link: p.47 "Identifying Problems and Solutions" (the retelling of A New Friend: Go Ne, his father, Wen Shu, the slingshot, the vet). "A problem is something difficult that happens in stories and in our lives. We can fix problems. A solution is a way to fix the problem." The story is retold in simple words. Pupils then do p.47 A in their books (write the problem and the solution).
4	**GAME: Problem and Solution Pairs**	9 min	🎮 Game	• 🃏 Flip two cards • 🗣️ Read the card out loud • 🤝 Match the problem and its solution **Say:** This is a problem. · This is the solution.	Book link: p.47 B "Look at these pictures of early money. What were the problems with them? What solutions did people use?" (barter, metal spade money) and pp.42-45. The team in turn chooses two cards (the whole team shouts a number, one pupil taps). The board reads each card. A pair = 2 points and the team goes again. A wrong pair turns back and the next team plays. Six pairs on the board. When all are found the winner is shown.
5	**Design the Next Money**	8 min	🎨 Create	• 🎰 Spin the Money Machine for an idea • 🎨 Draw your money on the mini whiteboard • 📢 Show it: I think the next type of money will be … **Say:** I think the next type of money will be a … · You can … it.	Book link: p.46 C "Think and discuss. Design the next type of money." Frame: "I think the next type of money will be …". Press Spin for ideas (a pupil may use it or ignore it). Start the timer for drawing. Then pupils show their design and say the frame. Press "A pupil shared!" for each design. Stick the best designs on the wall as the class "Money of the Future".
6	**Money Designers' Ceremony**	3 min	🤔 Think	• 🏆 Cheer for every team • 🚪 Door pass: show your design and say one sentence **Say:** I think the next type of money will be …	At the door each pupil shows the design and says "I think the next type of money will be a …". Next lessons: Reading 2, The $100 Bill (pp.48-55).

Support. Fill the chart from the picture cards; use the Money Machine words for the design; partner draws, you say.
Stretch. Explain the problem of the old money and how the next money solves it; write the design sentence in the notebook.
Check learning. Door pass: show your design and say one sentence about it. Give a team point for every correct team, not only the fastest.

Facts and dates come from the checked Unit 3 notes (pupils' book pages). Pictures: emoji now; the classroom pictures are added as they are made.
