Min	Step	Teacher	Pupils	Tip
0–7	**Game 1: Volcano Words (pp. 66–69)**	Open Game 1 on the smartboard. Tap the speaker to play each clue ("A loud BOOM sound in a storm"). Ask a team to come up and tap the matching 3D picture card (thunder, bark, ash, dream, sunrise). Drill pronunciation with the whole class.	Listen to the clue, look at the 3D pictures, tap the right word card, and chant the word and sentence together.	Use physical gestures for each word: hands over ears for thunder, barking like an island dog for bark, fluttering fingers down for ash, sleeping hands for dream, and rising arms for sunrise.
7–15	**Game 2: Cause & Effect Bridge (p. 65)**	Explain on p. 65 that a CAUSE is WHY something happens and an EFFECT is WHAT happens next. Read each Cause card on the left of the smartboard (e.g., "Smoke and ash came from the volcano"). Call a team representative to tap the matching Effect on the right ("The sky turned dark").	Read the Cause aloud as a team, choose the matching Effect on the smartboard, and say the full sentence using "...so..." or "...because...".	Prompt pupils with the simple check question: "Why did the sky turn dark?" → "Because smoke and ash came from the volcano!"

15–25	**Game 3: Sail to Safety! (pp. 66–69)**	Point to the animated outrigger sailboat on the smartboard between smoky Mount Tambora and the rescue ship at sunrise. For each of the 6 story steps, ask teams: "What happened first / next / finally?" Tap the chosen sentence card to move the boat closer to the rescue ship.	Read the three story choices with their team, pick the next event in chronological order, and cheer as the family's boat sails across the sea to the rescue ship.	Keep book pp. 66–69 open on desks so pupils can verify the story order directly in the text.
25–35	**Game 4: -nd Blends & Think Together (pp. 70–71)**	Part A: Show the -nd word cards (sand, wind, island, sound, behind, find). Have teams write the missing -nd word on mini whiteboards before tapping the board. Part B: Display the Think Together questions comparing "Where Is She?" and "The Angry Mountain" and discuss how characters felt (scared, surprised, excited).	Hold up mini whiteboards with the -nd word, underline the final "nd" letters, and share one full sentence comparing the two Unit 4 stories.	Award bonus monster stars to teams that use both a feeling word (scared / excited) and "because" in their speaking answer.

Assessment & Friday Quiz. Check that every pupil can (1) match all 5 volcano words, (2) pair a cause with its effect, (3) retell 3 events from The Angry Mountain in past tense, and (4) read and spell -nd words. Print unit4-g3-lessons/quiz-grade3.html (20 marks) for Friday's Unit 4 check.

Differentiation. Support: Allow emerging readers to point to the 3D illustration and repeat the key word + short frame ("It is ash. The sky was dark."). Challenge: Ask confident speakers to link two events with "First... Then... Finally..." and explain how the girl's feelings changed from the palm tree to the rescue ship.
