

English Adventure Academy

Lesson Plans: Grade 3, Unit 2 "Thank You"

Two 35-minute interactive lessons based on Global Readings 2 (pages 24 to 39)

Teacher	_____
Classes / date	Grade 3 (3A and 3B) Dates: _____
Pupils	Ages 8 to 9, level A1 (CEFR). First language Turkish. Mixed ability.
Unit and book	Global Readings 2, Unit 2 "Thank You" (harvest festivals, gratitude, "Chuseok: Korea's Harvest Festival", the science-fiction story "First Harvest")
Lessons	Lesson 1: Chuseok Moon Feast (Reading 1) Lesson 2: First Harvest (Reading 2)
Length	35 minutes each
Resources	One interactive smartboard (self-made offline lesson program), mini whiteboards and markers (one per pair), printed cards (corner and place signs, mingle sheet, paper lanterns, farm cards), masking tape, a timer (on the board). No pupil devices are needed.

Why these lessons are designed this way

The pupils have already read the texts in the textbook. These two lessons consolidate the language of the unit and use it for a real purpose. The pupils are young (8 to 9), so they move, act, talk and play; the smartboard is only the stage, the timer and the scoreboard. The lessons follow these teaching principles:

- **A reason to learn.** Each lesson opens with a story hook (an invitation from a child in Korea, a strange farm with pink potatoes) so the language is used to solve a mystery or join a festival, not just to answer questions.
- **Meaning before language.** New words and structures (weave, contest, feast, There are...) are first met through a story told by the teacher and acted out by the pupils (Total Physical Response), before pupils are asked to say them.
- **Everyone speaks at once.** Mingling, pair describing and walking-to-a-corner activities give every pupil real speaking time, not just a few at the board.
- **Surprise and curiosity.** In Lesson 2 the setting (Mars) is kept secret until the end of the story, which teaches the reading skill "understanding the setting" through a real surprise.
- **Variety and energy.** The mode changes every 3 to 7 minutes (think, act, move, talk, create, team race), alternating calm and active tasks to hold the attention of 8 to 9 year olds.
- **Positive team spirit.** Four teams earn points for good reasons, good listening and teamwork, not only for speed. Points are never taken away for mistakes.
- **Formative assessment.** The teacher checks understanding all the time (mini whiteboards, hand signals, listening to pairs) and every pupil says one "door pass" sentence at the end.
- **Culture and values.** Lesson 1 builds cultural awareness (a Korean festival) and gratitude. Lesson 2 links English with science (growing food in space) and the idea of the setting of a story.
- **Safe and private.** The lesson program works offline, collects no pupil data and stores nothing. Only team points are shown during the lesson.

Lesson 1: Chuseok Moon Feast

Textbook link	Reading 1, "Chuseok: Korea's Harvest Festival" (pages 26 to 29), vocabulary in context, language focus: thankful for, There is / There are
Prior knowledge	Pupils have read the text. They know simple family and food words and numbers to ten.
Lesson aims	By the end of the lesson pupils will be able to: 1. Retell the legend of the weaving contest and the king's feast with key words (weave, cloth, contest, feast). 2. Name three Chuseok traditions (food, dance, family) with the words harvest, songpyeon and ancestors. 3. Say what they are thankful for: "I am thankful for my ... because ...". 4. Use There is / There are with numbers to describe pictures.
Success criteria ("I can...")	I can say what the two teams made and what the king gave them. I can tell a friend one thing people do at Chuseok. I can say "I am thankful for my ..." and give a reason. I can say "There is one ..." or "There are three ...".
Target language	Vocabulary: weave, cloth, contest, festival, harvest, ancestors, feast, songpyeon, full moon, thankful, family, friends. Structures: I am thankful for my family. / I am thankful for my friends because I love them. / There is one moon. / There are five songpyeon. / They weave cloth for a month. Classroom language: What are you thankful for? Can you say it again?
Skills	Speaking and listening (main focus), a little writing

Procedure (35 minutes)

Time	Stage and activity	What the teacher does	What the pupils do	Interaction and resources
3 min	1. The Moon Invitation Mode: think	Reads an invitation from Min-ji, a child in Korea, line by line on the board. Asks: "What is a festival? Which festival do you like?" Shows the four missions of the lesson.	Listen. Whisper to a partner: "A festival has ... (food, music, family)". Share ideas.	Whole class, then pairs. Smartboard.

Time	Stage and activity	What the teacher does	What the pupils do	Interaction and resources
7 min	2. The Moon Legend Mode: act it out	Tells the legend of the weaving contest in eight short parts while the board shows the moon growing over the month. Pupils do an action for each part. The teacher stops once and asks pupils to guess which team wins before showing the answer. Repeats the key sentences three times (echo).	Stand and act: put on a crown, weave (hands over and under), show muscles for the contest, make a round moon, eat the feast, put hands together to say thank you, walk in a circle, bow. Retell the legend to a partner.	Whole class standing. Total Physical Response. Smartboard (moon animation).
5 min	3. Visit the Festival Corners Mode: move	Three corner signs: FOOD, DANCE, FAMILY. Shows a card ("People eat songpyeon"). Pupils walk to the right corner on the count of three. Asks two pupils to read the sentence and shows the answer. Gives team points for good reasons.	Read the card, walk to the corner, say the sentence to a friend.	Whole class moving. Printed corner signs and tape. Smartboard cards.
6 min	4. What Are You Thankful For? Mode: talk	Models one dialogue with a pupil. Starts a 4-minute timer. Walks around and listens. Presses Freeze when the timer rings.	Mingle: ask three friends "What are you thankful for?" and tick the picture on the mingle sheet. Answer "I am thankful for my ...". Stretch: add "because ...".	Whole class mingling, pairs. Printed mingle sheet (12 picture cards). Smartboard timer and model.
6 min	5. Thank-You Lanterns Mode: create	Gives each pupil a paper lantern. Shows the sentence frame and word bank. Chooses pupils to read aloud; the class applauds and the teacher adds a lantern to the Moon Wall on the board each time.	Write "I am thankful for my ... because ..." and draw it on the lantern. Show and read it. The lanterns are stuck on the class wall afterwards.	Individual, then whole class. Paper lanterns, pencils. Smartboard Moon Wall.
5 min	6. Harvest Moon Race Mode: team race	Shows six rounds: sentence scrambles and counting pictures. A 45-second timer runs. Shows the answer after each round and gives a point to every correct team.	Teams write the answer on a mini whiteboard ("There are five songpyeon") and hold it up when the time is over.	Teams. Mini whiteboards. Smartboard timer and scoreboard.
3 min	7. Thank-You Ceremony Mode: reflect	Shows the scoreboard and cheers for every team. Stands at the door and listens to each pupil say "I am thankful for my ...".	Say one sentence to leave the classroom.	Whole class. Each pupil to teacher. Smartboard podium.

Differentiation

Support	Picture cards on the mingle sheet. Pupils may say only the word first ("family") then the full sentence. A stronger partner at the corners and in the race. Word bank on the board. Pupils can copy the sentence frame onto the lantern.
Core	Pupils say and write "I am thankful for my ..." with their own word and draw it.

Stretch	Pupils add a reason with "because" (I am thankful for my friends because they help me), ask two extra friends, or write a second sentence on the back of the lantern.
---------	---

Assessment

- **During the lesson (formative):** the teacher listens to at least six pupils in the mingle and notes who says "I am thankful for my ..." correctly; checks mini whiteboards in the race; watches the corner choices.
- **At the end:** the door pass: every pupil says one correct sentence with "I am thankful for my ...". The teacher notes pupils who need extra support next lesson.
- **Evidence of learning:** the paper lanterns (display or photograph), race results, the teacher's notes.

Anticipated difficulties and solutions

Possible difficulty	What the teacher does
Pupils say "I thankful" or leave out "am".	Echo the correct sentence. Use the sentence frame on the board and the lantern.
"There is" and "There are" are mixed up.	Show one picture (There is one moon) and many pictures (There are five songpyeon). Use hand signs: one finger or many fingers.
"ancestors" is an abstract word.	Say "the grandparents of our grandparents", use the bow action and a family tree drawing on the board.
"weave" and "cloth" are new and similar.	Act out weave (hands over and under); show real cloth or a ribbon if available.
Noise and movement in a class of about 20.	Agree a start/stop signal first. Pupils walk, never run. Keep the aisles clear. Give team points for calm listening.
Technology fails.	The program works offline. The printed cards and mini whiteboards allow the lesson to continue without the board.

Cross-curricular links, homework and reflection

- **Links:** social studies (a festival in Korea, comparing with a festival at home), values (gratitude), art (lanterns).
- **Homework (optional):** ask someone at home "What are you thankful for?" and write one sentence: "My ... is thankful for ...".
- **Teacher reflection after the lesson:** Did every pupil speak at least three times? Who still leaves out "am"? Was the mingle too noisy or just right?

Lesson 2: First Harvest

Textbook link	Reading 2, "First Harvest" (pages 32 to 37), final consonant blend -st (page 38), reading skill: understanding the setting
Prior knowledge	Pupils have read the story. They know colour words and numbers to ten, and the characters (the family, Mom and Dad).

Lesson aims	By the end of the lesson pupils will be able to: 1. Say what the setting of a story is (the time and the place) and find clues for Earth or Mars. 2. Describe things with There is / There are and colours (There are pink potatoes). 3. Hear and say the final -st sound in fast, last, lost, best, test, first, harvest. 4. Ask for permission: "Can we go outside?"
Success criteria ("I can...")	I can say where the story happens and why. I can describe a picture with There is / There are and a colour. I can hear -st at the end of a word. I can ask "Can we go outside?"
Target language	Vocabulary: harvest, pick, worried, grow, believe, stripes, space suit, setting, farm, Mars, Earth, helmet, air, water. Structures: There are pink potatoes. / There is not much water. / Can we go outside? / Check your space suits. / It is Mars because ... Sound: final -st (fast, last, lost, best, test, first, harvest, nest).
Skills	Listening, speaking (main focus), reading of short sentences

Procedure (35 minutes)

Time	Stage and activity	What the teacher does	What the pupils do	Interaction and resources
3 min	1. A Strange Farm Mode: think	Shows a farm with pink potatoes, purple carrots, orange peas and striped tomatoes. Asks: What is strange? What colours can you see? Where is this farm? Does NOT give the answer. Shows the five missions.	Guess with a partner: "There are pink potatoes. I think it is ...". Share ideas.	Whole class, then pairs. Smartboard.
7 min	2. First Harvest: the Story Mode: act it out	Tells the story in eight parts. Pupils do an action for each part (dig, pick, worried face, surprised face, shake head "I do not believe it", eat pie, put on a space suit). Stops once: the children ask "Can we go outside?" - What does Mom say? Then reveals the surprise: the farm is on Mars. Asks: How do you know?	Stand and act. Guess what Mom says. Keep the secret. React to the reveal. Say how they know (space suits, air, helmets).	Whole class standing. Total Physical Response. Smartboard (farm and window that changes to Mars).
5 min	3. Setting Detectives Mode: move	Three place signs: EARTH, BOTH, MARS. Shows a card ("People wear space suits outside"). Pupils walk to the right place. Asks two pupils "Why?" and shows the answer. Gives points for good reasons.	Read the card, walk to Earth, Mars or Both, say "It is Mars because ...".	Whole class moving. Printed signs and tape. Smartboard cards.

Time	Stage and activity	What the teacher does	What the pupils do	Interaction and resources
5 min	4. The Stop Sound: -st Mode: listen	Plays the carriages to model fast, last, lost, best, test, first, harvest, nest. Says one word of a pair (fast / fat). Pupils show a stop hand for -st. Reveals the word.	Repeat the words. Put a hand up like STOP if the word ends with -st and hands down if not. Join the chant with claps.	Whole class. Smartboard, chant.
6 min	5. Describe and Draw the Farm Mode: talk	Models one card with a pupil. Starts a 4-minute timer. Walks around and listens. Calls "Swap roles!" Reveals cards on the board for checking.	Pairs: Pupil A describes a farm card without showing it ("There are three pink potatoes"). Pupil B draws on the mini whiteboard. Swap roles and check.	Pairs (information gap). Six printed farm cards, mini whiteboards. Smartboard timer.
6 min	6. Mars Mission Race Mode: team race	Shows six rounds: sentence scrambles ("Can we go outside?"), counting pictures and a letters word (fast). A 45-second timer runs. Shows the answers and gives a point to every correct team.	Teams write the answer on a mini whiteboard and hold it up when time is over.	Teams. Mini whiteboards. Smartboard timer and scoreboard.
3 min	7. Mission Complete Mode: reflect	Shows the scoreboard and cheers for every team. At the door answers "Yes, check your space suit!" to each pupil's question.	Ask "Can we go outside?" to leave the classroom.	Whole class. Each pupil to teacher. Smartboard podium.

Differentiation

Support	Farm cards show pictures with colours written under them. Pupils may point and say the colour, then the full sentence. Sentence frames stay on the board. Sit with a stronger partner for the race.
Core	Pupils describe two or three crops with number, colour and name.
Stretch	Pupils add "and" and a second sentence, ask the partner a question (How many?), or write a short description of their drawing.

Assessment

- **During the lesson (formative):** the teacher listens to pairs in the describe-and-draw and notes who uses There is / There are correctly; watches who shows the -st stop hand correctly; checks the reasons given at the place signs.
- **At the end:** the door pass: every pupil asks "Can we go outside?" correctly.
- **Evidence of learning:** the pupils' drawings (does the drawing match the card?), race results, the teacher's checklist (below).

Speaking checklist (teacher copy)

Pupil (first name)	There is / There are	Colour + noun	-st sound heard	Notes

Anticipated difficulties and solutions

Possible difficulty	What the teacher does
A pupil spoils the surprise and says "Mars" early.	Ask the pupil to keep the secret and whisper it to the teacher. Praise good detective thinking.
"is" and "are" are mixed up; plural -s is missing ("There is pink potatoes").	Show one thing and many things with fingers. Echo the correct sentence.
Final -st is dropped or an extra vowel is added (fasit).	Use the stop hand to show a short stop. Exaggerate the end of the word and let pupils copy.
The setting is understood only as a place.	Remind pupils that the setting is the time and the place; ask "When?" as well as "Where?".
Noise during pair work and walking.	Use a start/stop signal and the timer. Give team points for quiet working.

Cross-curricular links, homework and reflection

- **Links:** science (growing plants, water, air, living on Mars), art (drawing the farm), reading skills (setting).
- **Homework (optional):** draw a farm on a different planet and write two sentences with "There are ...".
- **Teacher reflection after the lesson:** Did the surprise work? Which pupils need more practice with There is / There are? Was the race too long?

Prepared for the headteacher by the class teacher. Materials: self-made interactive lesson program (works offline), printed cards, mini whiteboards.
