#	Activity	Min	Book page	Outcome: Students will be able to...	What happens (speaking first)	Codes
1	Briefing: Captain Quiet's space ship	3	p. ____ (unit opener)	Students will be able to greet Captain Quiet and say what they can see in the picture (I can see ...).	Smart Board: Captain Quiet and Teacher Robot in the space-ship classroom. Pupils look, whisper to a partner, then tell the class. The five missions of the lesson appear at the end.	L1, S3
2	Captain Says (TPR)	5	p. ____ (classroom instructions)	Students will be able to recognize and follow classroom instructions (Open the door, please / Be quiet, please / Look at the board, please).	Stand up. Captain Quiet gives instructions on the board and pupils do the action ONLY if the Captain says please (one round has no please: freeze!). A pupil becomes the Captain in the last minute.	L3, S3
3	GAME: Number Rocket	5	p. ____ (numbers 1-50)	Students will be able to count to fifty and recognize numbers when they hear them.	The rocket climbs a 1-50 grid while the class counts aloud; then counting in tens with a clap. Team game "Find it!": the board says a number, a team member touches it. Right = 2 points.	L4, S4
4	The Door Problem (permission)	6	p. ____ (asking for permission)	Students will be able to ask for and give permission with short utterances (Can I come in? Yes, you can. / Sorry, not right now.).	Smart Board picture: a pupil at the classroom door. One pupil asks (Can/May I come in/go out?), the partner is Teacher Robot and answers with the green door (Yes, you can. / Sure. / Of course.) or the red door (Sorry, not right now.). "Robot decides" picks a random answer. Pairs swap roles.	L2, S1
5	GAME: Give Me, Please (requests)	6	p. ____ (making requests)	Students will be able to make a polite request and respond to it (Give me the pencil, please. Here you are. / Say that again, please.).	Teams take turns. Two pupils from the team use a real object: one asks, one answers. Perfect request with please = 2 points; almost = 1. Eight requests in total.	L1, S2

6	GAME: Rule Race	8	p. ____ (review: permission, requests, instructions, numbers)	Students will be able to give and respond to simple instructions, requests and permission questions and count in a team race.	Four rockets race along lanes. Each team gets a task (count, ask permission, give an instruction, ask politely). Right answer = 2 points and the rocket moves; the next team can steal for 1 point. First to 6 steps wins.	S1-S4
7	Mission complete and door pass	2	p. ____ (no writing)	Students will be able to say one request or one permission question before leaving.	The podium shows the scores. At the door each pupil asks "Can I go out?" or says "Give me the book, please." and the teacher answers.	S1, S2
	Total	35				

Support. Use pictures and gestures; accept one word + please; partner models the question first; repeat numbers in tens.

Stretch. Add May I; give two instructions in a row; count backwards from 50 in tens.

Check learning. Teacher listens in pair work and at the exit ticket; note who can say a full permission question and who still needs support.

Book page numbers marked "p. ____" are to be filled in from the pupils' book. Teaching style: speaking before writing; TPR and movement; Smart Board touch and drag; puppet; team game; no translation.
